Order Confirmation: Fax, E-mail checkboxes

Notes for TayCo

Notes for TayCo text area

Four photos are required to fabricate a TayCo brace from measurements.

- Pictures taken on smart phones are acceptable.
- Position the heel of the shoe on the grid in the indicated area. While completing steps 1-3, do not move or reposition the shoe.
- To ensure a perfect fit, measure printout for accuracy before you begin (instructions on grid)

ONE

Take an overhead view of the shoe on the grid. Make sure the grid is clearly visible in the photo.

TWO

Take a lateral view of the shoe. Be sure the camera is level with the surface the shoe is placed.

THREE

Take a posterior view of the shoe. Make sure the grid is clearly visible in the photo.

FOUR

With shoe on, take a posterior view of the ankle. No grid necessary.

PO for TayCo
